## International Conference on Sustainable Renewable Energy Systems and Applications December 4-5, 2019

Organized By

LABGET LM

### 1<sup>st</sup> CALL FOR PAPERS

The International Conference on **Sustainable Renewable Energy, Systems and Applications (ICSRESA'19)**, provides a forum researchers and practitioners around the world on recent developments in the fields of Sustainable and Renewable Engineering, ranging from theoretical developments to industrial applications problems. The conference consists of plenary sessions, oral sessions and poster presentations. The first edition of ICSRESA 2019 has obtained some partner indexed journals (WOS, Scopus,...), which will upgrade the conference services to publish the selected among the presented papers.

Authors from academia as well as industry working within the scope of the conference subjects are invited to submit their papers. Submissions will be peer reviewed by International Committee on the basis of full manuscripts.

Acceptance will be based on quality, originality and relevance. Contributions should not be published elsewhere or submitted for publication during the review period.

### Covered topics

Topics of interest include but not limited to:

- Track 1: Modeling, Control and Optimization in RES
- Track 2: Electrical machines and drivers in RES
